Miss Edith Jones is teaching at Ross school. This is only for a short time as Edith is going to attend the University of Alberta, this fall.

The supervisors at Albert and Orbindale are Miss Allison Rome and Miss Carter. Miss Cockcroft is back at Education Point for the second year. We hope these girls will like being in our districts this year.

Threshing is getting underway in all parts of the district. Some outfits are fully staffed while others have only a few men. Nevertheless the crop is being attended to.

CANADA TAKES IN 25,000 REFUGEES

The International Refugee Organization announced last week that 73 countries on five continents received a total of 204,577 refugees immigrants during the year ended June 30, 1948.

Canada was one of six countries receiving 77 per cent of this total with 25,244 refugees being admitted to the country during the period. During the first year of operation the I.R.O. revealed that 258,000 refugees and displaced persons were returned to their countries of origin or resettled in countries of adoption.

In the same period the number of refugees receiving care and maintenance from I.R.O. decreased from 704,000 on July 1, 1947, to 598,445 on June 30, 1948.

WHEN will Winter come?

We wouldn't hazard a guess, but we predict it will arrive, and when it does there will be a grand scurry trying to get prepared for the "Long Cold."

You can do a great deal right now toward that preparedness—First fill your fuel bins. We don't sell fuel but we can help you get the most out of that high priced necessity, if you will order your replacements for those burnt out and broken grates and linings early. Clean all stove, and furnace pipes, replace the thin ones, with new, and use our "chimney sweep compound" periodically, and know the pipes and flues are clear of soot.

Install one of our slow combustion, brick lined Heaters and enjoy cozy comfort, with a minimum of fuel.

MUNICIPAL DISTRICT OF WAINWRIGHT No. 61

Public Notice

August 23, 1948.

The Provincial Board of Health makes the following recommendation to the Local Boards of Health in Alberta: "Where Poliomyelitis has appeared and where it shows evidence of a tendency to spread, the Local Board should issue an order prohibiting children under 16 years of age from attending any public gatherings, such as theatres, churches, playgrounds, swimming pools, and play groups on the street. If the above referred to conditions continue, the opening of schools should be deferred."

Since the evidence indicates that the usual method of spreading is by personal contact, the Board suggests that parents restrict the number of personal contacts of their children by organizing small groups for play purposes. Interchange between these small groups should be avoided. In polio cases, paralysis is more apt to attack the third child. Therefore, strenuous exercise should be avoided and extra rest be given. Serious chilling of the body has also been found to increase the amount of paralysis. Since the exact method of spreading is unknown, good habits of personal hygiene should be encouraged.

Issued by the Chairman, Provincial Board of Health, and advertised by authority of the Local Board of Health.

CHARLES WILBRAHAM,
Secretary,
Local Board of Health,
Municipal District of Wainwright, No. 61,
Wainwright, Alberta.

Rising Living Costs

FOR SOME TIME THERE HAS BEEN widespread concern over the steady increase in the cost of living in Canada. It is true that prices have risen alarmingly, and that in spite of general increases in incomes, it has become very difficult for many citizens to meet the present costs of food and other necessities. It was expected that prices would rise after the war and Canadians have suffered considerably less in this respect than have the people of most other countries. Where no economic controls were enforced during the war or in the years following it, prices and wages rose to fantastic levels, but even in those countries where these factors were regulated, it has not been possible to avoid the trend to inflation, as controls were gradually removed.

Recently figures were issued comparing the cost of living in Canada to that of the United States, our nearest neighbor, and a country whose economy is, in many ways, closely related to our own. These figures were calculated as possible on the same basis and they show that, on the basis of their value in 1939, the Canadian dollar is today worth more than the American dollar, and that Canadian consumers are paying less for most commodities than the Americans at this time. Based on values in the United States on May 15 of this year, it was shown that the American dollar is, in general, worth 60 cents, compared to its value in 1939, while the food dollar is worth only 47 cents and the clothing dollar 51 cents.

Greater Rise Is Indicated

On June 1st of this year, the Canadian dollar was worth 65 cents in general, as compared to its value in 1939, while the food dollar was worth 51 cents and the clothing dollar 57 cents. It was also shown that on May 15th, the cost of living index in the United States was 172.9, while in Canada on June 1st it was 153.1. Prices have risen to some extent in both countries since these figures were compiled, but economists agree that the rise has been more rapid in the United States than in Canada. While it does not help us to know that the American people are facing more difficulties than ourselves in the matter of living costs, it does bring to our attention the fact that the trend is general, and that while the situation here is far from encouraging, it could be much more serious.

Uranium, Rare Metal, Discovered In British Columbia

VANCOUVER.—Uranium, rare metal used in making atomic bombs, has been found in British Columbia, near Gun Lake in the Bridge River district about 15 miles north of the gold mine town of Bralorne.

The find was reported in Vancouver by the young prospector who discovered it—Ernest Johnson, 35.

It was confirmed officially in Victoria by Dr. J. F. Walker, B.C.'s deputy minister of mines.

"It's uranium, all right," Dr. Walker told The Vancouver Daily Province. "It's the first authentic discovery in B.C. of which we have definite information."

"Our tests of ore samples sent us by Johnson are not finished yet. We don't know how much uranium exists there, and we haven't yet identified the mineral in the samples. We do know, however, that the mineral is radio-active, and that it contains uranium."

U.S. POPULATION TAKES JUMP TO 145 MILLION

WASHINGTON.—Boom growth on the Pacific coast led the United States to an estimated population total of 145,414,000 in 1945, a rise of 8.9 per cent. since the 1940 census. The Census Bureau figured the combined population of California, Oregon and Washington rose by 3,981,000 or 40.9 per cent. to a total of 13,714,000.

Butcher's Credit — Have A T-Bone Steak; Eighteen Months To Pay

HOLDREGE, Neb. — A Holdrege meat market operator posted this sign: "Use your credit. Have a T-bone steak, one-third down, 18 months to pay." Herb Bierhaus said he put up the sign on his shop in an effort to get back business which had dropped off sharply because of resistance to high meat prices.

CAN PRAIRIE FARMERS GET ALONG WITHOUT HORSES?

By T. R. MELVILLE-NESS
Central Press Canadian

FOR quite a few years now they've been saying that the horse is finished in the west. Especially since the war ended, farms have been mechanized at a tremendous rate, and the trend continues. Thousands of farms that used to use horses for all field work have switched to power farming, and big barns that used to be filled with horses are either falling apart, or else they are being used to house expensive power machinery.

But supporters of the horse say that most farmers cannot get along without at least one general purpose team, especially in winter. A team of horses, they say, will do chores on mixed farms at far less cost than any other method. They also point out that a horse will get to town when the roads are snowed at a time when a car or truck couldn't budge.

Last winter was a case in point. Any farmer who still had a few horses during the months of heavy snowfall early in 1946 had plenty of reason to be glad he had them.

And this year's Class "A" western fair circuit proved that there's still a lively interest in the horse. There were five exhibitions, at Brandon, Calgary, Edmonton, Saskatoon and Regina, and at each one there were good displays of heavy horses. There was also a fair interest in these displays on the part of farmers who had long since switched to power farming.

Classes for heavy horse teams were specially popular at the fairs. In all cases, ringrides were crowded when heavy four and six-horse outfits were scheduled to appear.

In spite of a lapse in interest on the part of horse breeders, a few ardent horse-lovers have stayed in

The greatest spectacle of all, the rodeo, was, if anything, better than ever before at Western exhibitions. While mechanization spreads through the farming and ranching community, there are still plenty of tough cowboys to ride the meanest horse that ever left the chutes.

the business, and they managed to put on a good show. Judged by any standard, the heavy horse classes were good, and some outstanding individuals were shown.

If the public thought the ranching business had abandoned the horse in favor of the airplane or the jeep, they had an eye-opener at the two major rodeos of the west this year, the Calgary Stampede and the Regina Exhibition. Rodeo events were, if anything, better than ever this year. There were more chuck wagon outfits competing in the most exciting western event of all, chuck wagon racing. Bronk riding, with and without saddle, had more entries of a show.

While the work horse has become something of a rarity on many Saskatchewan farms, thousands of people flock to see the heavy horse classes at Western exhibitions. Experts predict that eventually farmers will decide that a team of general purpose horses on the farm is a great asset, and there will be a return to horses in a few years' time. Here is the Clydesdale team, owned by J. F. Dunham of Fairlight, Sask., winner of four championships on the Western Class A circuit.

A few breeders of heavy horses still manage to stage a show that is watched by thousands of people at fairs in the prairie provinces. Here is an unbeaten champion of the western circuit, Riverbend Monksconcarlaet, Percheron stallion owned by Jonathan Fox of Lloydminster, Sask. This great horse was reserve grand champion stallion of the breed at the Toronto Royal show last year.

THE TILLERS

Helicopters Used In Fight Against Pests

CALGARY.—Helicopters have been used to spray the area between Banff, Alta., and Field, B.C., with DDT and Diesel oil, in an effort to kill lodgepole pine needle miner. Three plots of 20 acres each were treated, using different spray deliveries in each section.

The pests have been in outbreak in the Banff Park area since 1942 and first injury to the trees was noted at that time. They are tiny moths about a quarter of an inch in length and very narrow, with silver-grey wings. Larvae, when hatched, begin to mine the needles of pine trees during July and August. During the winter they remain dormant inside the needle, resuming feeding in the spring.

Although the pests will not kill the trees in one year, the present outbreak has reached a serious stage. In 1946 it was hoped that natural factors might stop some of the damages but this year, larvae mortality dropped to about 20 per cent.; and permanent injury is reported to trees in the Lake Louise area.

FUNNY And OTHERWISE

Hubby: "I guess you're pretty mad because I came home with this black eye last night."

Wifey: "Not at all. When you came home you didn't have that black eye."

Mr. Jones: I think there should only be one head to a family.

Mr. Smith: Brother, you said a mouthful! I just paid for hats for my four daughters.

An old woman married a man even older than herself. One day she met the rector, who inquired why she had married again, and if she had now given up her occupation of washing.

"Oh, no sir," she said, pointing to her husband, "who was wheeling a barrow a few paces away. 'If I hadn't married I'd 'ad to 'ave bought a donkey.'"

Jones: "That pawnbroker raised his hat to your wife. Does he know her?"

Brown: "I presume he feels that he does; he has seen her picture so often inside the case of my watch."

Bill Jones called in a plumber to fix an upstairs faucet and as he and his wife were coming downstairs they met the plumber coming up. Bill said:

"Before I go downstairs I would like to acquaint you with the cause of the trouble."

The plumber politely removed his hat and murmured:

"Pleased to meet you ma'am."

Boss: "You want a raise? Why didn't you live within your means?"

Employee: "I do, sir, but you don't realize how I am crowded for space."

A baker was delivering bread in the avenue. A woman hurrying homewards from her shopping stopped him.

"Have you left me any bread?"

"Oh, yes, madam."

"Is it today's?"

"Certainly, madam."

"Well, yesterday wasn't."

Political Agitator: "I'm pleased to see such a dense crowd here tonight."

Voice from the crowd: "Don't be too pleased. We ain't all dense."

A pessimist says that after the next war, there will be a slight pause for nation identification.

Miss Vivian Stockton has returned to school at Wainwright.

Harvesting operations seem to be progressing rapidly. Although the yield is light, quite a number have expressed surprise at how well the crop is turning out considering the late spring and the midsummer drought.

Mr. and Mrs. Clarence Lovig of Edmonton were visiting with relatives and friends at Irma over the holiday week-end.

A very happy week-end was spent at the McKay home. Mrs. McKay's brother, W. L. Flett and Mrs. Flett of Newcastle, N.B., Miss Dora Flett of New York, accompanied by Mrs. G. Stacey, Lethbridge, and Miss L. Flett, Edmonton, arrived by car in Irma Saturday. Mr. Flett will attend the Ford convention in Banff, later going on to the coast.

The September meeting of St. Mary's W.A. will be held at the home of Mrs. H. Targett on Thursday, September 16th at 3 p.m. At the August meeting of St. Mary's W.A. arrangements were made to hold a sale of home cooking on Saturday, September 11, in the Co-op Store. A table of aprons, etc., will also be on sale.

Mr. R. S. Lissom of Edmonton was a visitor in Irma on Monday last. Mr. Lissom's old friends here are very interested to know that his son Sqdn. Leader Harold Lissom recently made a non-stop trial flight from Edmonton to Toronto setting a record of 6 hours and 15 minutes.

RCMP Const. Lloyd Johnston arrived home from New Brunswick by plane Friday. He will spend 3 week's leave with his parents, Mr. and Mrs. H. Johnston.

Mrs. J. M. Holt, Barry Clifton and Mackie left Irma on Monday for the Holt property near Edmonton where they will take up residence for the school year.

E. W. Carter, former local editor of The Times, sends greetings from Wainwright and states that the Wainwright school is away to a good start and a fine bunch of pupils are in the dormitory.

HARVEST WAGES

The Alberta Federation of Agriculture recommends that the going wage for harvesting and threshing for 1948 be \$6.00 per day for harvesting and \$7.00 per day for threshing, based on a ten-hour day, including board.

For the past two years the Directors of the A.F.A. have recommended a uniform basis for establishing harvest wages. At a recent meeting of the Board of Directors

the above recommendation for 1948 was endorsed.

The purpose of such action is to give farmers a guide as to what can be considered a fair wage and thus remove unnecessary competition and misunderstanding. The Federation has been in consultation with governments of this Province, Saskatchewan and Manitoba and finds that this recommendation is in line with those made in other provinces.
